

Our Eco-Family blog for the school website:

At Northwick we already have two of the three Eco awards, now we are working hard towards the top award - Green Flag.

Our Eco-family are dedicated to improving our school grounds by planting to encourage bees, butterflies and more pollination.

We are also focussing on not littering and ensuring everyone is using the correct bins.

Our trusted volunteers are litter picking ~~to~~ keep our school safer for the wildlife.

To keep us even healthier we have an app that records our journeys to school, encouraging ^{and rewarding} walking, so ^{improving our fitness} and helping ^{stop} pollution.
