

Dear Year 6,

We would like you to record a message that we can share of your happy memories of Northwick Park Primary. We plan to put all your messages together into a Podcast that you can listen to and remember your primary school days.

Please record your messages as a voice memo or audio file on a phone, tablet or computer. We are happy to receive messages in different formats and we will try and convert if we can. We may need to edit your message to make it fit the final podcast.

All messages should be no longer than 30 seconds long and could include some of the following things:

- How long you have been at Northwick
- Any memories of your early days at school
- What have you really enjoyed learning or doing
- Anything funny/sad/happy that has happened
- Any school visits you remember

You can use your first name in your message but please do not use your full name and keep your messages positive and kind.
